

## Important Sigma Chi Substance Use & Abuse Policy Change

May 16, 2018: Sigma Chi International Fraternity is proud to be a leading voice in advocating for culture change related to substance use and abuse on college campuses. On Jan. 16, 2018, Sigma Chi announced a series of policy changes. Since that announcement, we have listened to feedback from stakeholders from all over the fraternal landscape.

A hallmark of my leadership for Sigma Chi will always be to listen to the reasonable thoughts and opinions of those most affected by our actions—the feedback we receive will take the form of resistance to change—other times, the feedback we receive will take the form of thoughtful, constructive reaction to bring to our attention unintended consequences and complications.

I am proud to say that Sigma Chi has listened to feedback. I am also proud to say that the overwhelming response to our January announcement from our current students was one of respectful discourse, coupled with a determination to make Sigma Chi better. Finally, I am most proud that Sigma Chis everywhere have rallied around our efforts with a collective purpose to enhance the safety provided by all of our environments.

The thing about culture change is that it requires buy-in—that was largely the case, yet there were some exceptions. The most critical, important, and convincing feedback we received came from our undergraduate men, who were the ones most committed to making the changes work. They repeatedly told us that they want to be the leading voice on the matter of working to uncouple alcohol and fraternities, but also said they couldn't do it

## Sigma Chi/Psi Psi Today—The Good, the Bad, and the Opportunity

By **Phil Oldham '66**

Editor | *The Saltine Sig*

We all know that the fraternity system, including Sigma Chi, is being challenged, based on the actions of a few fraternity chapters and individuals. Our goal as Psi Psis is to stand out as the exception to the perception.

As undergraduate and alumni Psi Psis, we have much **good to be proud of**. Our undergrads have accomplished a lot in the past school year. Similarly, our Psi Psi alumni have been successful in both their individual careers and lives, and in connecting with and giving back to our Sigma Chi and Psi Psi brothers.

Here is an example of how Psi Psi separates itself from the negative stereotype: a nationally reported SU fraternity incident involved the Theta Tau Fraternity's creation of a racial video that resulted in the fraternity and many of its members being expelled. The diversity of Psi Psi's membership and leadership is the perfect response of Sigma Chi promoting tolerance and equal opportunities.

**Yet there has been a bad side.** Our undergrads have demonstrated a glaring lack of respect for our chapter house. While we don't expect 737 Comstock to become a "sorority house," the abusive treatment of our house—throughout the year and the end-of-the-school-year destruction—was truly ugly.

The simple truth is that college (at a tremendous cost to the undergrad or parents) and Sigma Chi/Psi Psi are intended to prepare men for post-grad life. Sigma Chi works hard to be there, providing unique lifelong professional, social, and personal benefits.

**There are so many Sigma Chi opportunities** for personal success—from connections with hundreds of thousands of Sigma Chi brothers to dozens of Sigma Chi alumni chapters in every place, profession, and interest. Unparalleled networking opportunities are available. Sigma Chi provides undergrad leadership training via Balfour and other programs. Sigma Chi and Psi Psi offer scholarships to help with expenses. Yet too few of our undergrads or alumni brothers are making the most of what Sigma Chi or Psi Psi has to offer.

This issue includes an article by our Grand

Consul, Tommy Geddings, outlining revisions to the "drinking" and abuse policy. The revisions are a result of alumni and undergrad feedback from the policy outlined earlier this year. The give and take, and our fraternity's ability to listen and respond, needs now to be supported by our chapter.

*The Saltine Sig*, website ([psipsi.org](http://psipsi.org)), and our social media are opportunities for sharing memories and building fresh connections. As with life, these opportunities are only as beneficial as they are used. The shortage of articles in this issue reflects more connection opportunities missed.

Creating our Psi Psi future needs to be the result of joint undergrad and alumni discussion and opportunity building. Here are three ideas:

1. Have undergrad and alumni leadership meet before the start of fall classes to jointly clean and prepare our house—building connections—and to workshop to mutually establish opportunities, responsibility, and accountability for the coming year.
2. Establish the Alumni Big Brother program to begin with the undergrads' junior year. By then, undergrads have established their major and likely post-grad preferred location. It is also before the desperation of the senior year job hunt. Undergrads choose from an alumni pool of willing brothers. The relationship will help guide the undergrad and connect him to the lifelong Sigma Chi alumni benefits.
3. Build connections with northeast alumni clubs to help set up post-grad connection and to provide Sigma Chi social benefits when in the area of the alumni clubs over holidays and vacations. Because of the number of Psi Psis who will end up in New York City, a specific focus is in motion to build Psi Psi connections with the NYC Alumni Chapter.

As you read through the rest of this issue of *The Saltine Sig*, let its content both remind you of what is great about being a Sigma Chi/Psi Psi and encourage you to enter into the discussion, with your thoughts and ideas on how Sigma Chi can work for you and all of our current and future brothers.

## Psi Psis Receive Sigma Chi Foundation Scholarships

By Phil Oldham '66

At the spring Clambake/House Corp./ alumni chapter board meeting, Psi Psi undergrads **Bandon Renick '18** and **John Freda '18** were awarded \$2,000 scholarships from the Sigma Chi Foundation. Brandon is a senior in the Whitman School of Management, graduating with a 3.154 GPA through this

past fall semester. John is a senior majoring in biotechnology/management studies with a 4.0 GPA. He will be entering dental school this fall in Buffalo. We wish them both success in continuing their studies—benefiting from this jump-start to the benefits of being a life-loyal Sigma Chi/Psi Psi.

Brandon Renick '18 and Bill Beach '69.

John Freda '18 and Bill Beach '69.

## Chapter President

The election of the new chapter president was held this past spring in the house of the Psi Psi Chapter. Many qualified candidates ran for the position, but Brandon Das, a rising upperclassman, fit the job description and has done a commendable job of being a reliable and considerate leader of the house. The brothers of the Psi Psi Chapter have no doubts about the direction in which Brandon is taking us.

## Chapter Welcomes 24 New Brothers

During the spring of 2018, the Psi Psi Chapter held a successful rush process in order to attract the best possible candidates for membership in our brotherhood. The officers of the Psi Psi Chapter ran a very successful pledge process,

in which the newest class learned and experienced the history behind our house and chapter. We are confident they will continue to be a positive light for the legacy that the brothers before us have laid.

## Extremely Successful Derby Days

This past spring, the Psi Psi Chapter hosted an incredibly successful session of Derby Days. With the week consisting of charitable events, the brothers of this chapter raised \$7,000 for the Children's Miracle Network, \$6,000 for the Huntsman Foundation, and \$11,000 for the Upstate Golisano Medical Hospital. Overall, the men from the Psi Psi Chapter exemplified passion for helping the community.

# House Corp. Report on Property Condition

**By Hank Suominen '78**

I have to go on record that we are very disappointed in the condition of the house as it was left after graduation. Common areas and bedrooms were left in the worst condition I can ever remember. There was a bonfire on the parking lot, and the new fence protecting the parking lot was cut-through.

As part of our standard procedure, we will deduct repair costs from security deposits and, if necessary, bill the room occupant for any actual cost that exceeds the security deposit. The chapter is back-charged for the cost of clean-up and repair of the common areas. As a result of the disrespect for the property, the house will no longer be open for graduating seniors to use after the graduation ceremony on Sunday. A full set of photos taken of each room will be posted on [www.psipsi.org](http://www.psipsi.org).

*Room 204.*

## Summer 2018 House Corporation Update

After several summers in a row with some heavy lifting, summer 2018 is taking it easy. We have our routine turnaround work to get done and will wrap up the electrical rewiring project with clean up of a few circuits that need to be transferred to the new panels, and that is about it. We do have some work that will need to be planned out, like the restoration of the foyer and dining room slate floor. The flooring was redone in 2008, so unfortunately it has only lasted 10

years. We have to deal with it soon or face water damage to the floor joists. The current plan is to remove and replace the subfloor to the frame and replace with a more rugged subflooring, a waterproofing layer, a decoupling layer, and half-inch structural slate. While an expensive approach, we would expect a 50-year life cycle out of this method of replacing the most heavily used and abused flooring in the house.

## Policy Change

(continued from page one)

alone. So, we listened and acted. Here's what we have done:

### Amendment

All previously announced policy changes remain in effect, except as it pertains to the original action taken by the Executive Committee (EC) that was announced in January, which originally read: "Effective Aug. 1, 2018, no social events with alcohol may occur while recruitment or pledging operations are active." More information is available on [sigmachi.org](http://sigmachi.org); members are encouraged to read it carefully and thoroughly. In brief, the revised actions taken by the EC are:

1. "Effective Aug. 1, 2018, a chapter in good standing may hold no more than four chapter-organized events with alcohol present during the pledge program as long as no pledges are present."
  - This means that effective Aug. 1, 2018, Sigma Chi chapters may host up to four social events where alcohol is served during the period that begins with the extension of bids and ends with initiation.
2. The Executive Committee has also added a provision that prohibits those individuals who are prospective or potential members and those individuals who are currently pledging from attending any chapter organized event where alcohol is present.
3. Note that any and all events must still be fully in compliance with all Sigma Chi policies and any provisions of the Risk Management Foundation (RMF) policy for those chapters receiving insurance from RMF. In addition, please remember that the laws and rules of your individual state or province and campus must also be followed.
4. If you have any questions at all, please seek clarification before the event.

I am reminded at this time of an old saying: "If you want to go fast, go alone. If you want to go far, go together." I am proud of our youngest members, who helped us modify our approach to initiating the important process of culture change by focusing on community-wide buy-in first. We will make culture change happen, but it will only be lasting change if we can get everyone to buy in. Thank you to the countless men who have been an important part of this process.

For more information on the latest policies slated to go into effect, please visit [sigmachi.org/policychanges](http://sigmachi.org/policychanges).

In Hoc,  
Tommy Geddings, South Carolina '85

[grandconsul@sigmachi.org](mailto:grandconsul@sigmachi.org)

## Sigma Chi Foundation Elects Psi Psi Joe Durzo '67 as Chairman

My experiences as a young man in the Psi Psi Chapter were foundational in my development. I made life-long friends and was given the opportunity to grow and learn lessons about responsibility, leadership, and accountability that have served me throughout my life. Thinking back on all the laughter, camaraderie, and challenges that I experienced with my brothers at the 720 Comstock chapter house motivates me to do what I can to ensure that the young men of today and tomorrow have access to a strong, vibrant Sigma Chi.

As the general fraternity works to develop leaders dedicated to the betterment of character, campus, and community, the mission of the Sigma Chi Foundation is to secure financial resources and provide faithful stewardship in support of Sigma Chi. I was honored to be asked to join the Board of Governors of the Sigma Chi Foundation in 2014, and in April 2018 I was elected chairman.

This fiscal year alone, thanks to the support of our alumni donors from chapters across the United States, the Sigma Chi Foundation provided \$480,000 in scholarship support and an organizational record \$5 million-plus collectively in overall grants and support.

During our governance meetings in April, the fraternity and foundation leadership teams ratified a roadmap to deploy the Sigma Chi Leadership Learning Continuum as rapidly as possible. This continuum is the evolution of Sigma Chi's existing leadership programs, many of which deal with the pivotal issues facing our brothers today (hazing, substance abuse, mental health, sexual misconduct).

Our objective is to train over 17,000 leaders annually. This includes our active and future Psi Psi brothers. My fellow board members,

L-R: Foundation Vice Chairman John Forst, George Washington '84, Joe Durzo '67, and Past Chairman Bob Johnson, Miami (Ohio) '69.

the fraternity leadership team, our staff at the foundation, and I are committed to raising the funds necessary to expand the reach of these leadership development and training efforts, as well as enhancing our support of academic scholarships.

Sigma Chi's vision is to "be the preeminent leadership and character development brotherhood benefiting our members throughout life." We have made great progress

toward our goals over the last few years, but we know there is more work to do.

News and social media have too often had to tell sad, horrifying stories resulting from poor decisions by small groups of fraternity men. These stories cast a pall on all fraternal life in the minds of many. We believe Sigma Chi is in a position to positively change the landscape of Greek-letter organizations, so we have challenged ourselves to accomplish even more in the coming years.

As a fraternity and foundation, we realize that we must elevate Sigma Chi and our entire Greek community to become more than the world has expected, and to ensure that this powerful and improved experience thrives for generations to come.

Today, Sigma Chi is the biggest it's ever been and is doing more in terms of support for our brothers than any Greek-letter organization at any point in history. Last year, our active brothers raised \$4.5 million in philanthropic donations and contributed 302,000 hours of community service, and more than 14,000 of them were involved in campus organizations. I look forward to seeing how much more Sigma Chi can accomplish in the coming years.

I'm proud to be a Psi Psi and proud to be a Sigma Chi!

Joe Durzo '67

## Schefmeyer and Spall Are Significant Sigs

### By Phil Oldham '66

Congratulations to our Psi Psi brothers **Don Schefmeyer '69** and **Ted Spall '69** for their inductions as Significant Sigs at the June meeting of the Sigma Chi Grand Council in Chicago. This is not only an honor, it is a reflection on getting the most out of being a lifelong Sigma Chi.

It is their and our goal to help as many Psi Psis who wish to be part of the Sigma Chi/Psi Psi alumni experience. Step one is simply to reach out to your brothers. We can provide you current contact information for your classmates and other brothers—just email me at [poldham405@aol.com](mailto:poldham405@aol.com).

Thank you Don and Ted!

---

# Help Us Nominate Bill Beach '69 for the Order of Constantine!

Dear Psi Psi Brothers,

Last year, supported by **Joe Durzo '67** and **Ted Spall '69**, I nominated **Bill Beach '69** for the Order of Constantine. This is a well-deserved and long overdue honor. Serving as House Corporation president for more than 30 years and shepherding Psi Psi through a very difficult chapter in history, when the charter was pulled and Syracuse University no longer recognized Sigma Chi, Bill was

*Bill Beach.*

steadfast in making sure that we were returned to campus.

Bill was one of five nominees who had the same numerical score and did not make the cut last year. Please join me in writing a letter of support for Bill's nomination. Please feel free to write to me at [dschefmeyer8@gmail.com](mailto:dschefmeyer8@gmail.com) to request the salient information to help you to highlight the requisite issues, or you can hopefully view the information soon on the

[psipsi.org](http://psipsi.org) website.

The Order of Constantine is Sigma Chi's highest award and is given to those brothers who have gone above and beyond as alumni. It is especially applicable to those who have worked with a local chapter over many years.

Thanks for your help, and please reach out to any other brothers you may feel to be able to support Bill's nomination!

In Hoc Signo Vinces,  
Don "Fritz" Schefmeyer '69

---

## A Weekend in the Psi Psi Time Machine

**By Hank Suominen '78**

A gathering of mid-'70s era brothers took place over weekend of June 28-July 1, 2018, at the house—you all know the place: 737 Comstock Avenue. The event was a trial to see how the house would handle 20 or so alumni coming back in the hot Syracuse summer months and to confirm if it was worth the trouble to bring brothers back to the house when they had to bring a pillow, sleeping bag, and fan. We hired Gill Grilling to prepare family-style sit down dinners for Friday (roasted chicken) and Saturday (beef tenderloin) nights.

It was an open question if everyone who said they would come back would actually do so. Plus, the summer turnaround had to be completed in half the normal time (and the house was left trashed by the chapter—more on page three), and commitments had to be made for the food service, which had to be paid for in advance. Participation was solicited from 25 brothers, and we had three pass up front and three no shows, so we had 19 actually attend.

So was it worth all the trouble of sending monthly reminders, adjusting the date once, and making sure the house was ready? You bet it was!! A weekend in the Psi Psi time machine!

Once our eyes adapted to the changes that had taken place over the last 40 years, we were all quickly back in time—40 years!—to the defining era of our days at Psi Psi. Brothers reconnected almost instantly. Many of us had kept in personal contact with a quite a few of those who attended. While some were connected only through social media, this method is certainly better than nothing. We started with early arrivals Thursday night, with a simple dinner at an old favorite back in the day—when the board club cook didn't show up we would order takeout from Danzer's on Ansley Drive, which had been closed but recently opened under new ownership. We had two foursomes playing

golf at Skaneateles Country Club (courtesy of **Doug Sedgwick '80**) on Friday and Saturday. Other groups formed for trips to go out to Green Lake State Park, a drive out to the Finger Lakes to visit several wineries, and, of course, walking tours of the campus.

It is hard to put to words why we all felt so good about our return to 737 Comstock Avenue. No doubt we individually felt walking through the doors during rush was one of the best decisions we made as college students. Over the four or so years at the 'Cuse, we had exposure to a couple hundred guys we have as our brothers. While we stayed close the first five years after graduation, many of us advanced our careers while raising families over the next 15 or so years.

# Time Machine

(continued from page five)

Time flies by.

About the end of that time—1998—we lost the charter, and Psi Psi was MIA. Without a rally point, reunions took place less frequently, usually around 'Cuse sporting events or golf. And then, around 2006, the rechartering effort took place, leading up to 2008, when we came back on campus.

Over the most recent decade we have worked to bring back reunion traditions like homecoming and clam bake. To be honest, those events are not widely embraced, for reasons I can't figure out. There always seems to be a "failure to communicate" issue with scheduling conflicts like Derby Days, initiation weekend, or something else that should have been prominent on the schedule but was not. And so, with some frustration over the quality of the connection time, I came up with the idea of a Psi

Saturday family-style dinner at the house.

Psi alumni-only weekend to celebrate the roughly 40 years since most of us graduated. The experience was so engaging, it seems we forgot there was this thing called social media. My first post on Sunday morning was just a brief mention of a gathering that ultimately came to epitomize the meaning of being a Sigma Chi. Our days as Sigma Chi, Psi Psi brothers was the common bond, with the ritual in the forefront, that

Butch Gilbert '77, Tom Domenici '79, Peter Hennigan '79, Jeff Hoffman '77, and Jim Sedivy '78 at Skaneateles Lake.

Larry Kloock '77, Jim Sedivy '78, Tom Domenici '79, and Glenn Nunnamaker '78 at Danzer's.

made reconnection so easy and so different from other reunions such as those involving our friends from high school. The bond was much deeper with our Psi Psi brothers—there was this almost instant sense of being in a comfort zone with really good friends. There is truly nothing like it.

## House Corp. Update

(continued from page three)

House Corp. experimented with a reunion this summer based at 737 Comstock Avenue. We gathered up a group of about 25 from the mid-'70s era who came back to the house during the last weekend in June. We planned a couple rounds of golf, two dinners at the house, poker and backgammon, and a "chapter" meeting with a round of GOs.

I took the sponsor role, which means I was personally responsible for making sure the house was turned back at the end of the weekend as it was received. If you would like to run a reunion event using the house as a base for your event, please let me know and I can fill you in on the details. As we expected, the event was a success, and we will look forward to using the House for this purpose in the future.

IHSV,  
Hank Suominen '78  
President and Treasurer  
737 Comstock Avenue Inc.  
(aka House Corp.)

# Psi Psi Alumni Send Their News

**Raymond "Ski" Swierczynski '52** says, "At 89 years of age, everything is slow and easy. I am the last of a small group of friends from the Navy, business, and the art world. Occasionally I exhibit a painting at a local gallery. If I am alive, my wife, Ursula, and I will be off to Chautauqua this summer for a cultural high."
